Engineering & Technology – Career Assessment Questionnaire

16-Question Assessment with Course Mapping

This questionnaire evaluates your **skills, knowledge, and interests** related to Engineering programs. Each question is weighted for each specialization based on core competencies and industry focus areas.

Assessment Instructions

Rate each question on a scale of **1–10**
1 = Strongly Disagree/Not Interested at all
10 = Strongly Agree/Very Interested

Interest Assessment Questions (6 questions)

Question 1: How interested are you in designing and constructing structures or systems?
Focus: Engineering Design & Planning

Question 2: How interested are you in troubleshooting and solving technical problems?
Focus: Problem-Solving

Question 3: How interested are you in working with electronic systems and circuits?
Focus: Electrical/Electronics

Question 4: How interested are you in manufacturing processes and production systems?
Focus: Industrial/Manufacturing

Question 5: How interested are you in environmental protection and sustainable engineering?
Focus: Environmental Engineering

Question 6: How interested are you in geospatial data and surveying land?
Focus: Geodetic & Surveying

Skills Assessment Questions (6 questions)

Question 7: How comfortable are you with advanced mathematical concepts and calculations?
Focus: Mathematics

Question 8: How well can you use computer-aided design (CAD) and engineering software?
Focus: CAD & Software Skills

Question 9: How comfortable are you with laboratory work and conducting experiments?
Focus: Experimental & Lab Skills

Question 10: How well can you interpret technical drawings and schematics?
Focus: Technical Drawing Interpretation

Question 11: How well do you manage projects and coordinate team tasks?
Focus: Project Management

Question 12: How comfortable are you with data analysis and simulation tools?
Focus: Data Analysis & Simulation

Knowledge Assessment Questions (4 questions)

Question 13: How well do you understand mechanics, materials, and structural behavior?
Focus: Mechanics & Materials

Question 14: How well do you understand electrical circuits and signal processing?
Focus: Electrical Theory

Question 15: How well do you understand thermodynamics and fluid mechanics?
Focus: Thermo/Fluid Mechanics

Question 16: How well do you understand manufacturing systems and operations?
Focus: Manufacturing Processes

Weight Mapping by Course (1–10 scale)

Question	Civil Eng.	Mech. Eng.	Elec. Eng.	Electronics & Comm.	Computer Eng.	Chem. Eng.	Ind. Eng.	Geodetic Eng.
1	10	8	5	5	6	6	7	4
2	8	9	9	8	8	7	10	5
3	4	6	10	9	9	3	5	3
4	5	7	6	6	5	4	8	3
5	6	5	7	6	6	4	7	4
6	3	4	4	4	5	3	4	10
7	10	10	10	9	9	10	8	8

Question	Civil Eng.	Mech. Eng.	Elec. Eng.	Electronics & Comm.	Computer Eng.	Chem. Eng.	Ind. Eng.	Geodetic Eng.
8	7	7	7	7	9	6	8	5
9	6	7	6	6	6	5	7	4
10	8	8	8	9	7	6	8	5
11	7	7	6	6	6	7	9	5
12	8	8	8	8	8	7	9	6
13	9	9	6	6	7	8	7	4
14	4	5	10	9	9	3	5	3
15	7	8	7	6	6	8	8	4
16	5	6	6	5	5	7	9	3

> **Interpretation:**
>
> - **10** = Highly relevant; core to the course
> - **5** = Moderately relevant; supportive skill or knowledge
> - **1** = Low relevance; peripheral to the course

Scoring Method

1. Rate each question **1–10**
2. Multiply your rating by the **weight** for each course
3. Sum all **weighted scores** per course
4. The course with the **highest total** is your best match

Example:
If you rate Question 1 as **9**:

- Civil Engineering = 9 × 10 = **90**
- Electrical Engineering = 9 × 5 = **45**

Continue for all 16 questions and sum to determine your top fit among engineering disciplines.
